### Spartan Lightbar

Redtronic's Spartan lightbars are powerful warning devices which are suitable for both the emergency and amber safety markets as it offers a wide range of customisation to meet the needs of customers from recovery services to high-speed pursuit police vehicles. It is available in 12 length options with a comprehensive list of features available to customise the lightbar to satisfy many different requirements across the globe. Features include stop tail turns, work/take-down/alley lights, central illumination with signage, built in traffic director as well as built in speaker/siren option. The Spartan lightbar is designed for tough environments and features 4mm ultra-strong UV stabilised polycarbonate outer lenses that sit on a durable aluminium base to help protect the lightbar from large impact debris when the job gets tough. The Spartan lightbar also offers a variety of LED module colours featuring all the standard single, tri and multi colour options available using ultra-bright latest generation LEDs behind our popular wide-angle FX optics along with optional coloured outer lenses for when presence is key or remain clear when a covert approach is required. The Spartan lightbar boasts major industry requirements including, EMC R10, ECE R65 approvals, CAP168 / ICAO and comes with 6 standard flash patterns. At Redtronic we are confident and proud at the performance and quality of the Spartan lightbar that is why we have endorsed it with a 5-year warranty.
