Facial Recognition Access

Elevator Access

## 9 Key Advantages, Comprehensive Features

Permission Allocation

Visitor Management

Flexible Reports

Information Management

Offline Operation

Real-time Upload

Centralized Management

3D Maps

Linkage with fire department

## 4 Focus Areas, 4 Major Advantages, All-Inclusive

**Flexibility**  
Highly Integrated Automated Management System  
Generates various reports and archives

**Efficiency**  
Sub-second Processing Speed  
Quick Information Interaction, No Waiting Required

**Practicality**  
Offers multiple recognition methods  
Low learning cost for administrators

**Responsiveness**  
24/7 Hotline  
Rapid Response to Customer Service Needs

**Management**  
Comprehensive Information Control  
Effortless Management,  
Automatic Handling of Complex Tasks

**Facility Owners**  
More flexible usage, supports multiple door-control methods  
Low learning cost

**Equipment**  
Millisecond-level recognition, wide network of after-sales support and maintenance  
Adapts to various scenarios, quickly adaptable based on needs

**System**  
Real-time data upload, automatic reporting of exceptional situations to the system  
Flexible and dynamic system, framework changes synchronized with equipment changes

## Key Products, Flexible Choices

**Facial Recognition Machine**

**Intelligent Access Control**

**Visitor Kiosks**

**Speed Gates**

**Swing Gates**

**Turnstiles**

**Tripod Turnstiles**
