

FrogSigns

Dynamic Wayfinding Signage

Take your Parking Guidance System to the next-level with FrogSigns. These are fully customizable, allowing you to connect with your customers in a unique way, while ensuring a seamless user experience.

Tailor made

Built for you, in a variety of sizes, orientations, fonts, colors, truly... whatever you need, we can do

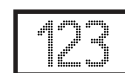

Wireless communication

This means lower liability as no trip hazards, plus reduced maintenance as less cables and wiring requirements

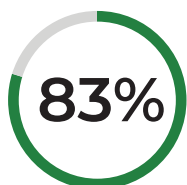

Sustainability

Lower your carbon emissions by helping your customers find a parking space faster

Display live occupancy

Take the guesswork out of finding a parking spot. FrogSigns have real-time occupancy information to direct drivers to available spaces

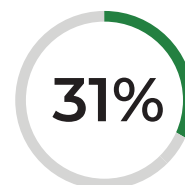

Increase in utilization during peak times*

Reduction in cruising time since installation*

Faster to find a parking space since installation*

Increase in revenue since installation*

All Frogparking solutions include a customizable dashboard offering comprehensive insights into your parking asset. This real-time dashboard provides unique information about driver trends, behaviors, and preferences, along with tailored reports covering technical, operational, and revenue collection data. Our dashboard facilitates effortless decision-making to optimize revenue and maximize the potential of your parking asset.

**Averages based off 2022 overall client data.*
