Color-Safe®

PAVEMENT MARKINGS

Durable and High Definition Color

Color-Safe® is a Methyl Methacrylate (MMA) based product and is one of the only UV stable material used for color pavement markings. Color-Safe® is typically used for demarcation of bike lanes, pedestrian areas, bus lanes, and other specially designated areas.

The use of different aggregates create skid resistance and wear characteristics per project specifications. Easily applied by hand with squeegees and rollers or with automatic spray equipment, Color-Safe® cures without requiring external heat sources.

Color-Safe® is capable of full cure in a wide range of temperatures, allowing for a longer marking season.

Color-Safe® enhances your safety program with high visibility color and increased service life.

SAFER TRANSPORTATION THROUGH INNOVATION

Color-Safe®

PAVEMENT MARKINGS

Features and Advantages

- Excellent color retention and durability
- High visibility color increases motorist awareness
- Available in a variety of colors
- Easy application
- Fast cure time (30 min at 70°F)
- Wide application temperature range (40° - 100°F)
- Low life cycle cost
- Ability to adhere to both concrete and asphalt surfaces

Application Process

Prepare Surface: Surfaces receiving Color-Safe® must be thoroughly cleaned and free of all dirt. Contaminates that might interfere with the proper adhesion of the material may be removed by sandblasting or shotblasting.

Mix: Color-Safe® application is typically made up of three components (resin, hardener, and aggregate) that must be mixed thoroughly for uniform curing and performance.

Apply: Color-Safe® is applied by either the mixed resin and aggregate method or the spray/broadcast aggregate method.

Refer to the technical data sheet for application details.

No special equipment is required for installation.

Applications

Transpo's Color-Safe® can be used with different sizes and types of aggregate as an anti-skid surface and/or for demarcation.

- Bus lanes
- Bike lanes and bike boxes
- Pedestrian refuge areas and plazas
- Crosswalks and decorative pavements
- Roundabouts
- Toll lanes
- Airfields

Standard and Custom Colors

Transpo's Color-Safe® has many standard color options below, as well as custom colors available upon request.

- Bike lane green
- Bike lane red
- Traffic yellow
- White
- Handicap blue
- Adobe red
- Toll lane purple
- Orange
- Buff
- Black
- Gray
- Pink
