KIRCHDORFER & DELTABLOC®

We are road safety. Since 1995.

The Austrian family owned industry group has a long history in cement production, construction minerals and concrete. Since the introduction of DELTABLOC® concrete safety barriers in 1995, KIRCHDORFER has been a pioneer in the field of vehicle restraint systems.

KIRCHDORFER
ROAD & TRAFFIC

Continuous development since 1995,
more than 250 crash tests on our entire portfolio.

DELTABLOC®
SAFETY BARRIERS

A product range to cover all applications up to H4b containment – surface mounted, pile driven, pinned, anchored or embedded.

**PROTECTING LIVES
IS OUR MOTIVATION.**

STEELBLOC®
SAFETY GUARDRAILS

STEELBLOC® safety guardrails by DELTABLOC® outperform traditional guardrail design and quality standards.

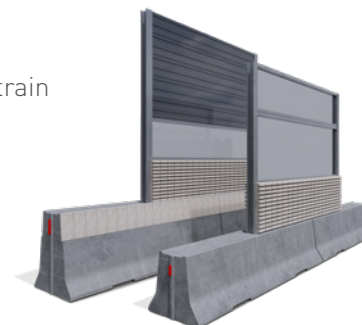

**TAKING ANOTHER
PERSPECTIVE.**

PHONOBLOC®
NOISE BARRIERS

Developed to reduce noise and restrain errant vehicles. The sustainable PHONOBLOC® products are customisable, highly absorbent and durable.

**GETTING THE NOISE
UNDER CONTROL.**

CITYBLOC®
SECURITY BARRIERS

CITYBLOC® is designed as a modular system providing a multitude of application possibilities for a variety of urban traffic areas, setting new standards in urban safety.

**SECURING
URBAN LIFE.**

SECURITY BARRIERS

TEMPORARY SAFETY BARRIERS

**CREATING
SAFETY
BARRIERS IS
OUR BUSINESS.
PROTECTING
LIVES IS OUR
MOTIVATION.**

VERSATILE & SAFE

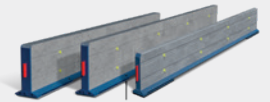

- elastomer base
- modular, flexible, versatile
- RAL-colour railing and accessories
- carries signs, posts and fences

EN1317-TESTED

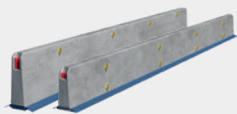

- crash-tested
- surface mounted and flexible
- for temporary and permanent use

SUPER-SLIM-TYPE

- no screws – no tools
- highest installation speed
- highest transportation efficiency

SLIM-TYPE

- compact dimensions
- fast installation

"2-IN-1" METHOD

- tested for temporary and permanent use
- reduction of project costs

PERMANENT CONCRETE SAFETY BARRIERS

FLEXIBLE

- surface mounted and flexible
- for temporary and permanent use
- all containment levels available

SEMI-RIGID

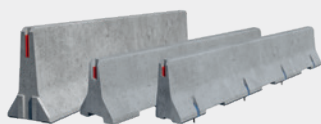

- reduces deflection on impact
- ideal for application on gravel

RIGID

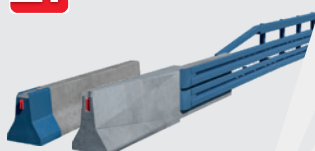

- no deflection on impact
- ideal for narrow single-row medians
- ideal for securing obstacles

BRIDGE BARRIERS

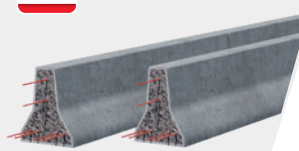

- EN 1317 impact loads recorded
- minimum deflection on impacts
- all "high" containment levels available

SYSTEM TRANSITIONS

- connect different barrier types reliably
- prEN 1317-4 crash-tested

IN-SITU

- corrosion resistant reinforcement
- connectable to all DB barriers
- variable height and width

PERMANENT STEEL GUARDRAILS

N2 BARRIERS

- modular design
- efficient installation

H1 BARRIERS

- modular design
- efficient installation

H2 BARRIERS

- small working width
- modular design

360° DELTABLOC® Service GLOBAL SERVICE, EXPERIENCE & KNOW-HOW

Ensuring highest standards for production, logistics and installation.

DELTABLOC® provides state-of-the-art solutions to any project, whatever its size – wherever you are in the world. We have a proven track record in delivering innovative ideas and the highest product performance in passive safety barrier systems. Obtaining all these services from one single, trusted source means you can be sure your project will be completed to the highest standard.
