

Is the Value Added Reseller of

Based in Taipei (Taiwan) and established in 1981, MESSOA is at the forefront of surveillance technology providing innovative and reliable products for various applications.

Working as a MESSOA partner enables us to offer state of the art solutions to all of our customers.

MESSOA products are built with top tier components from major manufacturers of the market (such as Sony and Fujinon)

MESSOA Development and Manufacturing processes meet or exceed international standards:

- CE, UL, FCC Conformity
- ISO 9001, 9002, 14001 Certification

MESSOA products are deployed in more than 65 countries, providing surveillance and protection for tens of thousands of facilities around the world, such as:

- Toll plazas for a French operator (Autoroutes du Sud de la France)
- Taipei Mass Rapid Transportation System (Taiwan)
- Lima City (Peru)
- High Speed Trains (Italy)
- Toulouse City Subway (France)

MESSOA CCTV products deliver outstanding images even in the worst conditions thanks to a rich set of advanced features including:

- **Fog Penetration Technology:** Enables recovering color images in foggy and low visibility video streams
- **3D DNR:** Powerful method for reducing image noise to produce extremely clear images in low light conditions
- **WDR:** Optimizes an image to ensure dark areas are more visible while retaining clear details and shapes in bright areas
- **Easy Day/Night:** Automatic or scheduled switching between color and B/W mode to ensure quality images when lighting conditions changes
- **Lumii Technology:** Processing capability is enhanced which delivers clearer and sharper images without blurring
- **IP Capability:** Products for all network solutions (PoE, with MJPEG, MPEG4 & H264 encoding)

Citilog's Experience in Video Surveillance

Citilog, a leading provider of advanced video-based products since 1997, has acquired a solid experience in the video surveillance field, enabling us to meet customers' needs and to offer the ideal services and solutions to address infrastructure Safety, Security & Mobility.

Road Monitoring – Automatic Incident Detection – Traffic Management

A wide range of Messoa products are supported by Citilog and we continually test new products and technologies to ensure their compatibility with software solutions. Continued testing enables Citilog to offer efficient turn-key solutions, including video monitoring, to all of our customers.

Those products also exceed the strong constraints as dictated when deployed on roadway infrastructures such as tunnels and bridges.

Urban Video Protection

Messoa video security systems clearly meet the needs of cities and local authorities. Messoa cameras, built to be reliable, robust and vandal proof, are valuable protection tools in fighting crime and guaranteeing the safety of the public.

Protecting Sensitive Sites & Intrusion Detection Systems

Messoa products are an ideal solution for monitoring sensitive sites such as, shopping centers, stadiums, corporations, transportation infrastructures, government and military buildings.

Messoa products are also compatible with Citilog's Intrusion Detection Software.
