Now our company is trying to expand and diversify our distribution network in the industry with our plant that equipped with high-tech machineries and technologies, warehouses and sales offices in strategic locations throughout the country and the worldwide.

MINAGALVANZ is aiming to be from one of the leader, pioneering companies in the steel supply and manufacturing of steel components. So that our company is strengthening our global presence by investing to the develop our its capacity. We are one of the CE Certified Companies in Turkey in our sector. We have also ISO certified by Turkish Standards Institute. Besides all products are being manufactured in conformity with the relevant Turkish (TS) and European (EN) standards.

## Fields of Activity

### Capacity & Product Group

The production capacity of MINAGALVANZ is total 60.000 metric tons per year. With this production high capacity, we can meet with the huge requirements of the market both in Turkey and overseas. Steel processing capacity of the MINAGALVANZ with respect to different raw materials are as follows:

Raw Material	Capacity
Steel	55.000 mt/year
Zinc	5.000 mt/year

Our Services in Steel Service Centers		
Company Country	Technical Processes	Sector
Business Units	Performing Decoiling (Coil-Opening), Cut to length, straining, Cutting, Slitting, Plasma Cutting, Bending (CNC Hydraulic Press Brake Bending machine), Roll-Forming, Profile and Pipe Bending, Drilling, Punching, Hot-Dip Galvanizing and packaging.	Steel industry

Today, **MINAGALVANIZ** is on the way of being one of the market leaders in the manufacture, distribution and the supply of galvanized steel products as follows.

### **Road Safety Group**

Road Restraint Systems such as; Steel Guardrail Systems, Bridge Parapets, Handrails & Cable Barrier Systems, Crash barriers, supply of the Crash Cushions.

### **Energy Group**

OHTL "Overhead Energy Transmission Line Towers. HV/MV/LV Lattice Structures, Substations.

### **Lighting Group**

Steel Street Lighting Poles & Columns, High Masts for Area Lighting, Monopoles etc.

### **Renewable Energy Group**

Manufacturing of Steel Structures for solar. Design, manufacturing and site installation of Steel Structures for any Solar CSP and PV plants (Photovoltaic (PV) and Concentrating Solar Power (CSP) technology). Wind Energy and Power Plant Poles etc.

### **Others**

### **Sales & Marketing**

**MINAGALVANIZ** Sales Department is in charge of Domestic & Export Sales and Marketing of products produced by the company. The one of the other strong channels of domestic sales of **MINA GALVANIZ** is participating public tenders. **MINA GALVANIZ** uses "Direct Offering Method" for exports. We are exporting too many countries from four different continents such as Asia, Europe, Africa and America.

## Group of Products

Main activity of MINA GALVANIZ is production of hot dip galvanized steel products for various applications. The product range can be classified as follows;

- Guardrail Systems Incl. Bridge Handrails & Cable Barrier Systems
- Energy Transmission Line Towers (Lattice, Monopoles & Tubular)
- High Mast Lighting
- Polygonal Steel Street Lighting Poles
- Tapered Round Conical Steel Street Lighting Poles
- Hot-Dip Galvanize Contracting
- Gsm Towers & Poles
- Steel Construction Manufacturing
- Traffic Signboards, Billboard and Camera Surveillance Poles Etc.
- Special Purposes Poles Flag, Wind Energy and Power Plant Poles Etc.

## Quality Control

We are ready to meet the competition challenge of EC integration. All the preparations have been completed for such integration, upgrading the quality and the human resource with the latest technology. As a result of this process, our company is awarded by TS-EN-ISO 9001:2000 quality certificates and CE marking.

## Quality Management System Certificates

- DIN 18800, CE, ISO 9001:2008, TSE–Conformity with Turkish Standard Institute Steel Poles, Energy Transmission Towers, Hot Dip Galvanize Coating, GSM Towers etc.
- OHSAS 18001:2007
- ISO 14001:2004
- ISO 9001:2008
