

Shanghai Biyu New Mstar Technology Co.,Ltd

Feb. 23, 2016

Our Company 我们公司

- Shanghai Biyu New Mstar Technology Co.,Ltd was founded in 2012 to manufacture road safety marking glass beads.
- We have become a leading manufacturer of reflective glass beads, grinding and blasting glass beads, metal finishing beads, hollow glass microspheres, polymer and additives. Annual glass beads outcome about 50,000 tons.
- Have collaborated with many influential companies, such as Ennis USA, Ennis Australia, Saudi Arabia, Traffic Safety Devices Korea.etc
- Not only manufacture glass beads but also deal with road marking relative materials, such as resin, titanium dioxide, pe-wax
- Continue to expand our business in the world with our high quality and competitive prices.

Our Products

We are manufacturing:

- 1. Road marking glass beads;**
- 2. Blasting glass beads;**
- 3. Grinding glass beads;**
- 4. Hollow Glass Beads**

Our Products--

1. Road marking glass beads;

We can produce according to following Standards:

1. JIS R3301
2. GB/T 24722-2009 NO.1,2,3
3. KSL 2521 NO.1 and 2 and 3
4. BS 6088 ClassA and ClassB
5. AASHTO M247 type I and type II
6. EN 1423 and EN 1424
7. AS/NZS2009:2006
8. Brizal Standard
9. TT-B-1325 Standard

Our Products--

2. Blasting glass beads;

We are producing sand-blasting glass beads for surface treatment.

Popular size	
No.	Size(um)
1	400-600
2	250-425
3	180-300
4	150-250
5	106-212
6	75-150
7	53-106

Our Products--

3. Grinding glass beads;

These grinding glass beads are used in dyestuff, paint, ink, chemical industries etc as dispersing agent, grinding medium and filling materials.

Popular size	
No.	Size(mm)
1	0.6-0.8
2	0.8-1.2
3	1.0-1.5
4	1.5-2.0
5	2.0-3.0
6	3.0-4.0
7	4.0-5.0

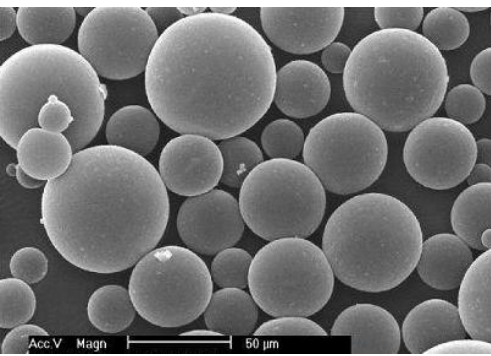

Our Products--

4. Hollow Glass Beads

**Hollow glass microspheres/bead for casting/
construction/ oil drilling/ paint/ coating/ refractory**

The physical properties hollow glass microsphere

Item	True Density	Cumuli Density	Floating Rate (%)	Moisture (%)	Mesh Size(%)				
					500um	425um	300um	150um	45um
0.95	0.947	0.43	96	0.1	100	99.2	91.2	43.6	5
0.85	0.847	0.43	95	0.1	100	99.6	97	68	7

Our Business

Manufacturing Facility

We have 3 production base in China, they are Songyuan^①, Jilin Province, Jinzhou^②, Liaoning Province, Changzhi^③, Shanxi Province.

Export Sea port: Xingang, Tianjin, China ●

Our Business--Quality control devices

We have a full set of quality control system including the following devices

Abbe Refractometer

Camisizer

Electronic Balance

Microscope

XRF Heavy Metal Detector

Our business partners--Domestic

BEIJING YUDACHENG

HANDAN LUAN

XIANGHE JIAOTONG
