

GLASS

Make your life colorful

How can glass beads make your life colorful?

In terrazzo

Colorful glass beads are fashion addition to a ancient floor. Sky blue glass beads can be used in sand cushion cement terrazzo, they also can combination with traditional marble chips. Its striking hues contribute significantly to the impact of sustainable floor. In addition ,glass beads increases the durability of a terrazzo floor

In courtyard

In your courtyard ,glass can provide a striking groundcover. Landscapus can provide you a variety of choices of colors, you can make up your Dry riverbed ,fountain accent ,paver aggregates ,rock garden . You can design your courtyard

In bar counter

How to build a unique bar counter is a hard choice for the customer. Colorful glass beads make this choice simple. The glass add color and variety at a highly customizable. Customer can select their favorite color shape texture. Both light and heavy polishing brings out the glass shine

In fire pits

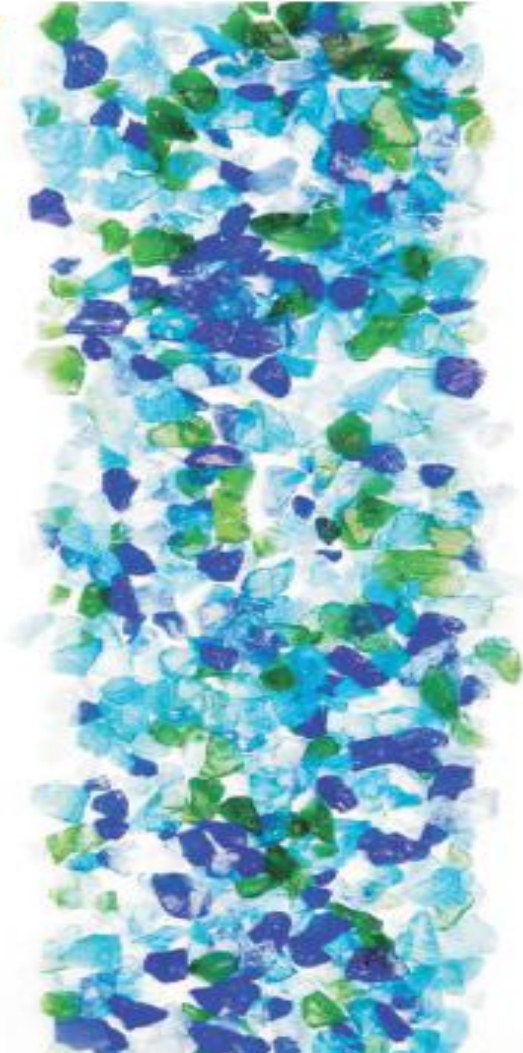

Replace fire log and cinders, colorful glass beads make your fire pit bright. Natural gas provides clean fuel with flame temperature below the melting point of glass .Customer homes ,restaurant ,resprts have all used our colorful glass beads in this stunning look

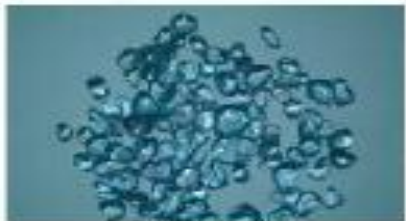

In swimming pool

Traditional swimming pool used to take plaster materials .But the limitation is sparkle and depth.Our glass chips can reflect sunlight with unparalleled pop. Put in your pool, glass will take your pool into a new level.Installation is identical to traditional exposed aggregate plasters with the added step of polishing the surface to remove any rough edge.Almost any combination of colors can be incorporated with traditional pebbles or quarts. Once you use glass, you never go back.
