CIRCONTROL
Mobility & eMobility

CirCloud and CirMobile, your parking at your smartphone!

Access your parking's information through CirCloud platform and share it with our new CirMobile App.

- Connect your car park at CirCloud and access all your parking data.

- Download CirMobile app and make this information available worldwide increasing your visibility and occupancy. With this app your potential customers will be able to see available spaces whether they are regular ones, handicapped or EVCharge.

Connect to CirCloud, download CirMobile now and increase your parking visibility worldwide! Available for Android and ios.

CirGateway
Service installed in each parking that is in charge of sending all required data to CirCloud

CirCloud
Cloud platform to manage data received from all parkings with circontrol Technology on them.

CirMobile
Genèric Mobile Application that is using CirCloud API to provide parking space availability, location and navigation to selected parking facility.

DB

3rd Party API Integration
