

APPLICATIONS:

CAR PARKS
ACCESS CONTROL
LOGISTICS
CONFERENCES
HOSPITALS / CLINICS

TECHNICAL PARAMETERS:

Parameter	Value
Frequency range	UHF EU ETSI 850~960 MHz
Gain	7 dBi
Readout range	6 m
Horizontal beamwidth	70°
Vertical beamwidth	70°
Polarization	circular
Max input power	50 W
VSWR	1,3 : 1
Connector	N
Input impedance	50 Ohm
Housing	ABS (IP 65)
Dimensions	235 x 235 x 34 mm
Weight	1,1 kg

A24 antenna is an universal antenna to be used outdoors and indoors. It is a perfect choice for identification system in offices, hospitals and clinics, warehouses or distribution centers.

Circular polarization provides the broad specter of identifying tags within the reach of antenna. Its case is weatherproof.
