

APPLICATION:

CAR PARKS

ACCESS CONTROL SYSTEMS

LOGISTICS

CONFERENCES

HOSPITALS / CLINICS

TECHNICAL PARAMETERS:

Parameter	Value
Frequency range	UHF EU ETSI 865~868 MHz, UHF US FCC 902~928 Mhz, 920~925 Mhz
Gain	14 dBi
Read range	16 m
Horizontal beamwidth	30°
Vertical beamwidht	30°
Polarization	linear
Max input power	50 W
VSWR	1,2 : 1
Connector	N
Input impedance	50 Ohm
Housing	ABS (IP 65)
Size	415 x 415 x 70 mm
Weight	1,6 kg

Antenna A45 is an universal outdoor/indoor antenna. It is designed to be used for identification systems in offices, hospitals and clinics, warehouses or distribution centers.

Linear polarization maximizes the read range for tags. Weatherproof housing.
