**BestSea**

**ZheJiang BestSea Technology Co.LTD** specialize in R&D, Production and Marketing of Plastic & Metal Materials in Cable Protector, Warehouse Safety, Crowd Control and Street Furniture Industry.

We have been developed over 200+ products that conform to MUTCD, ASTM, AS/NZS and CE Standard. We have implemented a Stringent quality control standard to ensure our customers in North America and Europe have quality products in this ever-changing Global Markets.

At Bestsea ,we work diligently developing new material compositions and products for application in more fields. During this process we carefully analyzes every step to ensure that our customers always to receive the best quality products. At Bestsea , quality is our number one commitment.

We are a company committed to building long-term partnerships with our customers all around the world. Our goal is to be your primary source for all kinds of Cable Protector, Warehouse Safety, Crowd Control and Street Furniture products.

Protect your Pallets Rack from Damaging!

# Rack Protector

Save Damages of Pallet Rack and Fork Truck!

Rack Protector is designed to protect warehouse racks from damage by forklifts, pallet jacks and other equipment. Made of ballistics grade polymer materials with plastic blow molding. They are an innovative and highly effective solution for improving security for warehouse and distribution center.

- ◆ Easy installation & removal, can be stacked to the desired height;
- ◆ Safety yellow color provides excellent visual reference for drivers and other warehouse personnel;
- ◆ Prevent rack and shelving damage from forklifts and pallet trucks;
- ◆ Polyethylene construction is free of maintenance;
- ◆ Economically and practically improve the security.

Protect your Column from Damaging!

# Column Protector

Save Damages of Column and Fork Truck!

Column Protector is designed to guard against accidental damage that may occur during collisions with forklift trucks. The Protector will reduce the damage caused by impact loads. Especially for installations with fast moving products or heavy products upright protectors are essential for the safety and durability of the racking.

- ◆ Protector Column Dimension from 10CM - 45CM;
- ◆ Safety yellow color provides excellent visual reference for drivers;
- ◆ Easy installation by velcro tape & removal;
- ◆ Prevent damage caused by impact loads;
- ◆ Economically and practically improve the security.

and Pu Filled To Increase Weight Capacity To 40tons

# Plastic Wheel Chock

Innovative Design Light weight but Heavy Load Capacity!

Anti-Slip  
Rubber  
Pad

Durable  
Handle  
For Easy  
Carry

Wheel Chocks are used for wedging and blocking tires to restrict movement of the wheel while vehicle is being loaded. They are well suited for trucks and other heavy equipment. Usually used as necessary precautionary measures to avoid potential personally injured.

- ◆ Lighter weight with tough urethane Filled construction;
- ◆ Maximum rated payload of 40 tons;
- ◆ Replaceable rubber anti-slip traction pads;
- ◆ Handle Design for Easy Carry.

# Beam Bumper

Protect Pallet Rack Beams from Impacting!

Beam Bumper is designed to protect warehouse racks from damage by forklifts, pallet jacks and other equipment. Made of ballistics grade polymer materials with plastic blow molding. They are an innovative and highly effective solution for improving security for warehouse and distribution center.

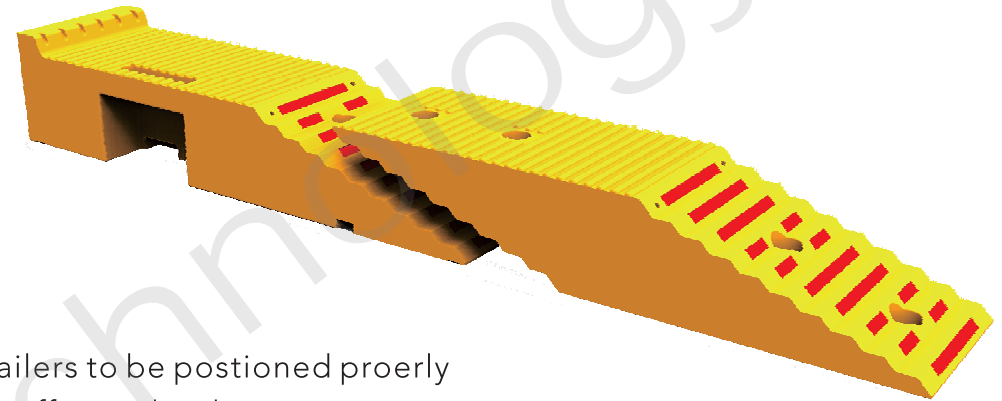

MODEL NO	LENTH	WIDTH	HEIGHT	WEIGHT	APPLICATION

## Extendable Wheel Riser

Innovative Design Light weight but Heavy Load Capacity;

Wheel Riser allow trailers to be positioned properly above dock for more efficient loading.

- ◆ Lighter weight with tough urethane Filled construction;
- ◆ Maximum rated payload of 40 tons;
- ◆ Replaceable rubber anti-slip traction pads;
- ◆ Handle Design for Easy Carry;
- ◆ Extendable Length and Width for Single, Dual or Tandem Alex Trailer.

MODEL NO	HEIGHT	LEVEL LENGTH	WIDTH	RAMP ANGLE

# Rack Corner Protector

Protect the Pallet Rack in Trun Area.

Rack Corner Protector is designed to guard against accidental damage that may occur during collisions with forklift trucks in trunning Area.

- ◆ Safety yellow color provides excellent visual reference for drivers;
- ◆ Easy installation by velcro tape & removal;
- ◆ Economically and practically improve the security.

MODEL NO	BS-NCG-1
LENGTH	900MM
WIDTH	100MM

## Upright Guard

Help prevent palletrack uprights from forklift damage !

Upright Guard made of steel to reduce the damage of racking for the increased durability.

- ◆ Safety yellow color provides excellent visual reference for drivers and other warehouse personnel;
- ◆ Prevent rack and shelving damage from forklifts and pallet trucks.

# Pu Foam Impact Protection

Reducing risk of collision where machinery and people are !

Protect your Column from Damaging !

- Foam profile protection that helps prevent impact damage and warns of potential hazards.
- ◆ Safety yellow color provides excellent visual reference for workers;
  - ◆ Easy installation by 3M self-adhesive tape;
  - ◆ Suitable for temperatures between -40°C and +90°C;
  - ◆ 1Meter Standard Length but can be cut to length required using a sharp knife.

# Flexible Pvc Impact Protection

Saving Equipment Damages!

Protect your Column from Damaging!

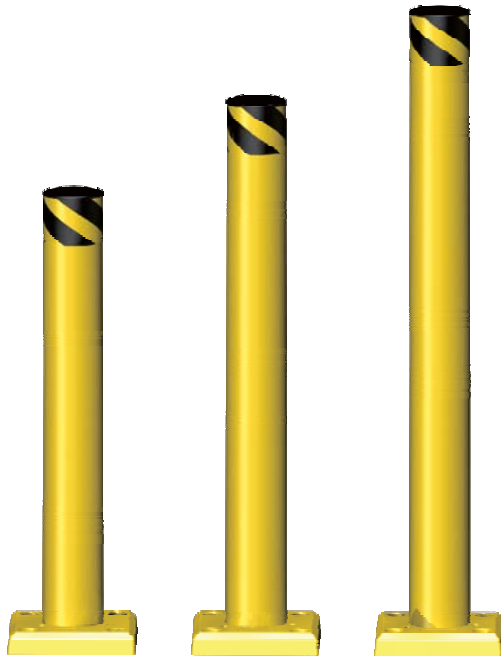

Flexible PVC Impact Protection is designed to prevent the impact, to be a warn of protruding corners, edges, vulnerable pipes and protects many other areas such as walls, vehicles, and machines.

- ◆ Safety yellow Stripes provides excellent visual reference;
- ◆ Easy installation by 3M self-adhesive tape;
- ◆ 1Meter Standard Length but can be cut to length required using a sharp knife;
- ◆ More Durable than PU foam style to provide extra protection for equipments.

# Pu Buffer Bollard

Slow Speed and Absorb impacting !

PU Buffer Bollard are widely installed in a warehouse help to keep facility and workers safe. Replace the past Rigid Steel Bollard, Which will cause some damage to vehicles if hit it.

- ◆ Safety yellow color provides excellent visual reference for drivers;
- ◆ Absorbs proportion of impact force and flexes when hit from any angle;
- ◆ With the impact for Forklift truck hit, Reduce damage to forklift, can rebound after being hit.

MODEL NO	BOLLARD BODY	BASE WIDTH	HEIGHT
BS-MFCB-75-C1-B2	100MM DIA	200MM	750MM
BS-MFCB-90-C1-B2	100MM DIA	200MM	900MM
BS-MFCB-105-C1-B2	100MM DIA	200MM	1050MM

## Pu Buffer Hoop Barrier

Slow Speed and Absorb impacting !

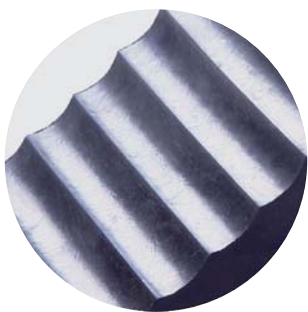

PU Buffer Bollard are widely installed in a warehouse help to keep facility and workers safe. Replace the past Rigid Steel Tueb, Which will cause some damage to vehicles if hit it. Create fencing, barriers by using pipe connectors or flexible guard rail. No need to ever weld pipe again.

- ◆ Safety yellow color provides excellent visual reference for drivers;
- ◆ Absorbs proportion of impact force and flexes when hit from any angle;
- ◆ With the impact for Forklift truck hit, Reduce damage to forklift, can Rebound after being hit.

**Anti-slip Pattern**

**Handles For Easy Carry**

Wheel chocks are a must-have for any loading dock environment, Wheel chocks can save lives in the event a trailer begins to roll or shift while loading or unloading. This molded rubber wheel chock is sloped to increase holding capacity by allowing truck tires to roll on the chock face. The chock comes with rubber handle for convenient carry.

- ◆ Rubber material resists tearing, abrasion, ozone weathering, anti-slip oil resistant.
- ◆ Solid Black Color, to endure dirty more easily.
- ◆ With grab handle Lightweight yet durable.
- ◆ Non-slip grooves grip the ground to hold your car steady. The stepped, fluted design of this
- ◆ heavy-duty, rubber Wheel Chock increases the downward pressure on the tire.
- ◆ Widely used in Roro ship, loading docks, fire trucks, hummers.

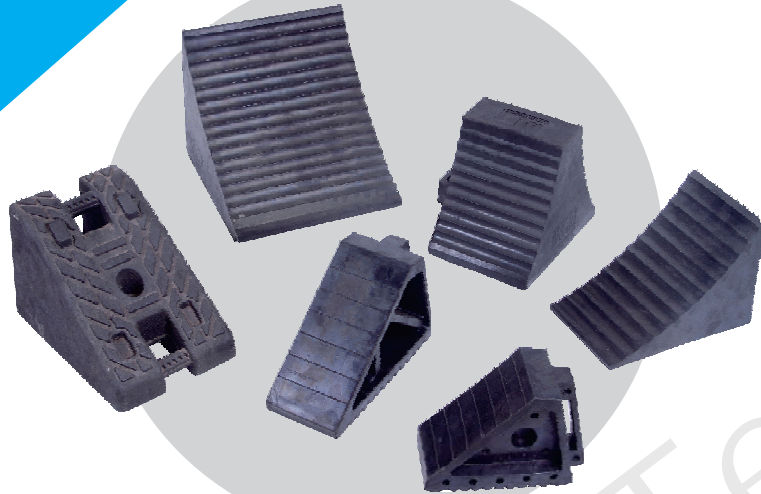

MODEL NO	LENGTH	WIDTH	HEIGHT	WEIGHT	COLOR

# Wall Dock Bumper

**Installs easily**  
In-plant wall protection from forklifts and other material handling vehicles.

**Each molded rubber dock bumper is a one-piece design that will not warp, rust or harden**

**Come with countersunk holes for easy mounting on poured cement foundation.**

Our Molded Dock Bumpers are manufactured from fiber reinforced prime rubber containing nylon and polyester. All of our molded bumpers have an impact recovery of 95% with a durometer reading of 80 plus or minus 5. This added strength ensures durability and longevity. The tensile strength of each molded dock bumper is 950-1505 psi. All of our models have pre-drilled, counter-sunk holes to accept anchor bolts.

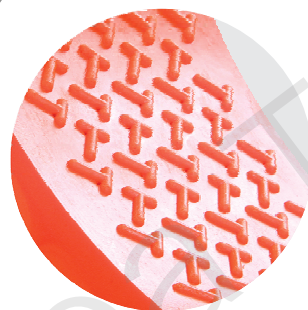

- ◆ Appropriate for outdoor or indoor protection.
- ◆ For commercial loading docks, warehouses, parking garages, and marinas.
- ◆ For vehicles such as tow trucks, trailers and heavy duty construction equipment.
- ◆ In-plant wall protection from forklifts and other material handling vehicles.
- ◆ Installs easily.
- ◆ Eliminates costly and unsightly damage to equipment, vehicles and structures.

## PU Wheel Chock

Anti-Slip Pattern Design

Easy Carry

- ◆ Constructed of lightweight, durable polyurethane
- ◆ Features a hole for securing in pairs by rope or chain, a molded-in handle, and a non-slip bottom
- ◆ Light weight makes it easy for workers to move
- ◆ High-visibility orange color makes it more likely to be seen and removed before driving off
- ◆ Put this wheel chock in place, and feel more secure when performing maintenance, loading, or emergency procedures
- ◆ Ozone, fuel, and oil resistant
