SR-CITY-BALI-TL

FLEXIBLE BOLLARD FOR CROSSWALKS WITH TRAFFIC LIGHTS

SR-CITY-BALI-TL has been developed thinking about **distracted walkers**. The **light on the top of the bollard is at the angle of view of a pedestrian who is looking at a cellphone**. Connected with the pedestrian crossing traffic lights, the **LED on top of the bollard changes from red to green – according to the pedestrian crossing traffic lights** -, alerting pedestrians if it is safe to cross the street or not.

KEY FEATURES

- Flexible bollard with memory effect and impact resistance
- Ideal for installation in entries of pedestrian crosswalks with traffic lights
- Specially developed to alert distracted walkers
- UV protection for greater durability
- 3M reflective tape with high reflectivity for greater visibility at night
- Possibility to add ribbons with glass reflector elements on bottom
- Over temperature protection
- Smart brightness management
- Easy installation and replacement

FEATURES

Main Body/Base Material: PU and Aluminum

LED's Type: Ring: 5mm | Top: Power LEDs

LED's Color: Red and Green

Main Body/Base Colors: Anthracite Grey (RAL 7016)

Reflective Tape: 3M Reflective Tape

Reflective Tape Colors: White Other colors available by request

Glass Reflector Ribbons Colors: Black with white crystals

ELECTRICAL FEATURES

Power Supply: 24V DC

Current Consumption:

Top LEDs: Red: 139 mA; Green: 200 mA

Ring LEDs: Red: 200 mA; Green: 200 mA

Working Temperature: -25 °C to +85°C
